

How do you receive a Locker Room Key?

STEP-BY-STEP:

1

A Coach/Parent/Player, who will be held responsible, gives the Front Office their Car Keys, Drivers License, or something of value in exchange for the locker room key.

2

Upon exiting your locker, be sure that the locker room is clean and lock the door behind you.

3

Once you return your locker room key to the Front Office, staff will perform a locker room check. Once the check is complete and all is good your item will be returned.

To allow for proper cleaning and maintenance, you will not be able to access your locker more than 30 minutes before your scheduled ice time.

The Rink is not liable for any lost or stolen items. We strongly recommend locking your locker and bathroom door while on the ice.
